

Masai

**Tangram
Puzzle**

**Made from
100% Up-Cycled
Plastic Waste**

PRODUCT DESCRIPTION

The Mãi Tangram Puzzle is a deceptively simple set of seven geometric shapes, including two small triangles, one medium triangle, two large triangles, a square, and a parallelogram. Unlock endless possibilities of arrangements and surprise people with your endless imagination!

Mãi is made from 100% up-cycled plastic waste. Mãi, which means “forever” in Vietnamese, refers to the properties that make these plastic materials great—the Mãi will last forever—either in this form or reprocessed into something new. All products are designed and manufactured in HCMC by rice studios, PLASTICPeople, and familyowned furniture maker Minh Chương.

PRODUCT SPECIFICATIONS (ASSEMBLED)

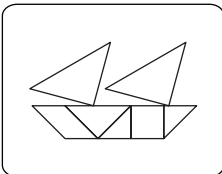

Width	140 mm

MATERIAL INFORMATION

TPP+

0% virgin materials,
100% up-cycled plastic waste.
Suitable for indoor use.
Prolonged exposure to rain or direct contact with water can potentially compromise its water-resistance capabilities.

Sources Milk & Juice Packaging (TETRA—PAK), Aluminum Foil, Plastic Bags.

TERRA

0% virgin materials,
100% up-cycled plastic waste.
Suitable for both indoor and outdoor use.
Colors may fade under direct sunlight.
No specific maintenance required for this material.

Sources Bottle Caps, Plastic Straws, Disposable Plastic Cutlery, Liquid Containers, Detergent Bottles, Shampoo Bottles.

DISCLAIMER

No additional chemicals & colors used.
Color may vary between production batches due to the nature of sourced raw materials.
